

HARVESTER

WATERPROOF

Be dry and comfortable with Seals Harvester's fully waterproof fabric. Harvester garment seams are welded and stitched to ensure the rain stays on the outside and the dry inside.

DURABLE & COMFORTABLE

Maximum comfort is the result of Harvester's light weight and fully flexible fabric. The inner neoprene lining is soft and non-abrasive to the wearer's under garments.

COMFORTABLE

High-quality build of our Seals Harvester rain garment range means longer life & better wear-ability. Harvester PVC-PU fabric is resistant to tearing and stands up to leaks caused by abrasion.
