FARMCHEM**

Chemical-resistant

Unique formula Farmchem fabric guards effectively against oils, animal fats, acids, alkalis and general detergents used in dairying today. Farmchem has been tested and proven to withstand common detergents and acids used in dairy sheds and around the farm.

Tough & durable

Farmchem fabric is flexible and strong, allowing ease of movement and at the same time providing a good rugged garment.

Abrasion-resistant

Farmchem fabric has excellent resistance to abrasion; the garments will remain effective after continuous day-to-day use in normal shed applications.
